

Dear Dr. Harrison,

We wanted to thank you for supporting us so we could go to Costa Rica on the LDBC Real Life Student Ministries 2005 Mission trip. We raised enough money for three people. They needed mom to go and we had enough money for her to pay her way. What a blessing!

We had a great trip. God was with us and blessed us this week. We visited two poor villages and took food and supplies to pass out. Our church collected the supplies before we left. We went to a park and our puppet team performed for the people. The pastor also preached. We even played soccer with the people.

Sunday we had a special afternoon service for children and had crafts and puppets at the church we were helping. We visited and passed out tracts and flyers for two special nights. We had the privilege to go to two orphanages and pass out more supplies our church collected. We made crafts, balloon characters and had a puppet show at a kindergarten. Two of these places SCORE had never visited and we were able to open the door for them so they could come back to minister again.

It was great to see the people opened to the Gospel. There were at least 50 saved this week. What a blessing! Thank you for your prayers and support.

Love,

April, Julie and Charlie Ashley
