Suite 200
Plano, TX 75023

Dear Jana:

On behalf of the senior students of the Caruth School of Dental Hygiene, I would like to thank you for allowing them to observe in your office. The students really enjoyed this experience and the response has been very positive. It was especially beneficial for them to see *first hand* how the dental office personnel deal with day-to-day situations that occur.

Thank you for your feedback and I am happy you are willing to accommodate our students in the future. Please extend our gratitude to your entire staff for their participation.

Thanks again for your assistance and best wishes for your continued success.

Sincerely,
