

Jana Harrison, D.D.S.

GENERAL DENTISTRY

Thorough, compassionate, and attentive, Dr. Jana Harrison has been creating beautiful Texas smiles for many years. Whether you need a general cleaning, restorative dentistry, or cosmetic procedures, she works closely with each patient, providing a comprehensive plan to help them meet their smile goals. An inviting, informal practice style keeps patients at ease, while a longtime staff makes sure everyone feels like family. Because Dr. Harrison treats patients of all ages, she and her staff feel a personal connection to the families she sees. "We follow our patients' graduations, marriages, grandchildren," Dr. Harrison says. "Most patients tell me a visit here is like seeing a friend; not like a typical dental appointment." Dr. Harrison's Plano practice utilizes the latest technologies in dental care, including surgical microscopes, digital oral X-rays, and the Comfort Syringe. She is a Pankey alumni, member of the Dallas Study Club, a VIP Member of the National Registry of Who's Who, and has been honored in America's Registry of Outstanding Professionals.
